Volume Discounts

At the request by a shipping line, any third-party terminal operator ("operator") may extend an all inclusive container rate to any existing shipping line that produced more than 85,000 container moves during the Port's previous fiscal year. Such all inclusive container rate, if requested by a qualifying shipping line and accepted by the corresponding terminal operator in a writing copied to the Port Director, (hereinafter referred to as "Port Throughput Charge") shall substitute for the existing dockage, wharfage, and crane rental charges (regular and overtime) being paid by the qualifying shipping line, whether through the Tariff or under the terms of a terminal operating agreement.

The below lift rates, which shall be paid by the terminal operator to the Port on behalf of the shipping line, include Port dockage, wharfage and crane rental rates (regular and overtime) inclusive of start up and tear down charges.

Port Throughput Charge:

0 to 85,000 Lifts	\$72.00 per Lift *
85,001 to 100,000 Lifts	\$60.00 per Lift
100,001 to 115,000 Lifts	\$50.00 per Lift
115,001 Lifts and above	\$40.00 per Lift

* Upon reaching lift 85,000, the shipping line shall be entitled to a \$12.00 per lift rebate from its first lift to its 85,000 lift. In this instance, the rebate shall be issued directly by the Port to the shipping line. There shall be no retroactive rebate to a shipping line if the higher throughput thresholds over 85,000 lifts are met. Also upon the shipping line reaching lift 85,000, the Port will reimburse the operator(s) \$2.00 per lift from the first lift by the shipping line for their respective moves handled.

In the case that the above rates are applied to a shipping line whose containers are shipped to the Port by a shipping line that does not qualify for the above volume discount, the Port will pro-rate any applicable dockage or crane rental charges to the non-qualifying shipping line to account for the charges for containerized cargo made pursuant to the volume discounts above.

Such volume throughput shall be counted from the beginning of each Fiscal Year (October 1 – September 30) for the Port of Miami (tiers resetting every 12 months).

MIAMI-DADE COUNTY
IMPLEMENTING ORDER

FEE SCHEDULE FOR MIAMI-DADE CORRECTIONS AND REHABILITATION DEPARTMENT
DAILY INMATE SUBSISTENCE AND PROCESSING

AUTHORITY:

The Miami-Dade County Home Rule Charter, including among others, Sections 1.01 and 2.02A, and Sections 951.033, (2014) and 939.06 (2014), Florida Statutes.

SUPERSEDES:

This Implementing Order amends Implementing Order 4-113, ordered September 18, 2009 and effective October 1, 2009.

POLICY:

This Implementing Order establishes fees for charging inmates in the care, custody and control of the Miami-Dade Corrections and Rehabilitation Department a one-time processing fee and a fair portion of their daily subsistence during incarceration.

APPLICABILITY:

The provisions of this procedure are applicable to all inmates incarcerated in facilities operated by the Miami-Dade Corrections and Rehabilitation Department. Exemptions will be determined by the Department Director to include inmates held for U.S. Marshal (as their sole charge), inmates assigned to the Work Release Program, Boot Camp Program, House Arrest Program, and inmates assigned to the Inmate Worker Program.

FEE SCHEDULE:

The daily subsistence fee charged to all inmates to offset the cost of incarceration is \$2.00. The one-time processing fee charged to all inmates to offset costs of incarceration is \$25.00

PROCEDURE:

The Department Director is authorized to collect fees pursuant to Section 951.033, Florida Statutes, and account for the revenues. The process will involve the following:

- a) The inmate will be advised of a fee schedule and policy during the orientation process and a copy of the fee schedule will be posted in each housing unit as well as made available in the inmate handbook.
- b) The daily subsistence fee will be debited on a daily basis from the inmate's financial account in the facility.
- c) The one-time processing fee will be \$25.00 after the inmate is booked into custody.
- d) If the inmate's financial account in the facility does not contain sufficient funds to cover subsistence costs, the Director may place a civil restitution lien against the inmate's other personal property. A civil restitution lien may continue for a period of three years and applies to the financial account of any inmate who is re-incarcerated within the county in which the civil restitution lien originated.

- e) When the court orders a lien against an inmate's funds; e.g., for child support, restitution, or court fees, such orders will take precedence over the collection of the daily subsistence fee.
- f) If any inmate wishes to present reasons in opposition to the assessment, a formal written appeal is available through the inmate grievance process as outlined in the inmate handbook.
- g) Any inmate with uncollected funds owed to Miami-Dade County Corrections and Rehabilitation Department, upon their release, shall pay said funds before any funds are released to them.
- h) Inmates who are held in jail as unsentenced and are acquitted or discharged on all charges shall be reimbursed for the daily charge of subsistence which they paid but not for the one-time processing fee. The inmate must provide a certified copy of the final court disposition from the Clerk of Courts prior to the reimbursement of such funds. The inmate may submit the request for payment at the facility property room upon release. After administrative review and processing, the check will be mailed to the last known address no later than 90 days after receipt of final court disposition

This Implementing Order is hereby submitted to the Board of County Commissioners of Miami-Dade County, Florida.

- (2) Park guests with a valid disabled parking decal are allowed free parking.
- (3) Parking fees may only apply to Regional Parks or events of regional significance.

GENERAL NOTES:

- All fees are net of applicable taxes. Participation fees for recreational structured programs and deposits are exempt from State sales tax.
- Fees do not include reimbursements of direct expenses, which may be charged separately at cost.
- The Department, with Director approval, may:
 - Adjust fees within the approved ranges, to account for service location, site and facility conditions, amenities, seasonality, peak times, and market demand;
 - Offer promotions and discounts on a limited case-by-case basis deemed to be in the best interest of the Department, and, which will not adversely or materially impact the Department's annual budget;
 - Create packages for customized programs, activities, tours, events, and encounters;
 - Negotiate fees with large groups; and,
 - Apply late fees to delinquent or past due accounts not to exceed 25% of the original fee.
- In accordance with Resolution No. R-1073-12 and any subsequent resolutions or state statutes, the Department offers Military Discounts.

STRATEGIC PHILOSOPHY:

The Department's fees are structured to ensure the community has affordable access to core services, while at the same time providing flexibility to change fees based on market conditions for value-added services.

Core Services (e.g. General camps, after school programs, learn to swim, disability services programs, open spaces, trails, etc.) are programs, services and facilities essential to the mission of the Department. These are basic parks and recreation services county residents expect and may generate revenue to recover some of the costs associated with the service.

Value Added Services (e.g. Marinas, golf courses, campgrounds, facility rentals, etc.) are discretionary programs, services and facilities that provide added value to the community. These services generate revenue which offset much or all the costs associated with the service.

4	Revise Rental Rates for Non-Terminal Building Properties – Miami International Airport	See attached schedule for building rental rates.
5	Revise Rental Rates for Building Properties – General Aviation Airports	See attached schedule for building rental rates.

6	Revise CUTE Rate Charge Methodology to Departing Aircraft Seat Basis from Hourly Usage Basis	<p>Revise the CUTE rate based on departing aircraft seat for non-exempt carriers.</p> <p>Revise the CUTE rate to \$1.77 per seat from the current rate of \$2.25 per seat.</p> <p>The CUTE rate per departing seat for non-exempt carriers will replace the hourly rates where applicable and in accordance with the Summary of Airline Charges listed above. This change is being implemented to maintain recovery of equipment maintenance and space costs as more passengers use various forms of self-processing technologies (kiosks, internet, smart phones, etc.) that do not require ticket counter services.</p>
7	Revise Class I Terminal Rental Rate to Reflect Class III Terminal Rental Rate	<p>Revise Class I rate to Class III rate since Class I space is no longer considered premium space due to reduced usage of ticket counters resulting from improvements in passenger self-processing technologies (kiosks, internet, smart phone, etc.). This revision also reduces the effect of vacant space while reducing operating costs to airlines. The revision requires the technical approval of the Co-Trustee, who has informally approved the change. In the event the Co-Trustee rejects the change, MDAD will reverse the Class I rate adjustment until such time as the Co-Trustee provides its approval.</p>

8	Revise Fees and Wording for Technical Reviews and Written Comments	<p>The following fees are being established to recover costs associated with technical reviews and written comments which ensure compliance with aviation regulations.</p> <p>Request for Written Comments (to include comments for conceptual development plans) – To recover costs associated with the technical review of proposed land-uses and structures and the issuance of written comments where airspace/land use and land use Letter of Determination (LOD) criteria does not otherwise apply. This fee also applies to conceptual plans in which case MDAD's comments are requested.</p> <p>Development Impact Committee (DIC) or Equivalent Large-Scale Zoning Hearing Application – MDAD Planning Division's review and written comments for the County's Developmental Impact Committee (DIC) zoning hearing applications or any other type of large scale applications where Airspace/Land-Use and Land-Use Letter of Determination (LOD) criteria does not otherwise apply. Fee will be waived if proponent pays for LOD. If the DIC application is conceptual during the review time and when department comments are due, MDAD will charge the \$360.00 even if an Airspace/Land-Use LOD is required in the future.</p> <p>Request for a new MDAD-issued Airspace/Land-Use or Land-Use Letter of Determination (LOD) to provide a time extension for an existing MDAD-issued LOD nearing expiration or already expired. This new LOD is only for an extension of time. All referenced data including, but not limited to, the land use, structure elevation, site plans, address or impacted property folio numbers as well as the actual approval must be identical to the data provided in the previously approved MDAD-issued LOD.</p>

Re: Miami International Airport
Non-terminal Rental Rates
October 1, 2014 – September 30, 2015

Dear Mr. González:

Pursuant to Resolution No. R-34-03, we are submitting a summary of our conclusions for:

- 1) Land Rental Rates
- 2) Paving Rates
- 3) Building Rental Rates

Waronker & Rosen, Inc. (formerly as part of Quinlivan /Waronker Joint Venture) has been preparing the annual rental rate report on the non-terminal properties at Miami International Airport since 1994. For the preparation of these annual reports, the following steps have been taken:

- Inspected non-terminal buildings at Miami International Airport in order to determine the condition of the buildings.
- Gathered and analyzed land sales in the areas surrounding Miami International Airport and derived appropriate rates of return on land value from various sources.
- Personally inspected non-terminal properties at major hub airports in the United States and interviewed property managers regarding land rental rates and non-terminal building rates at these airports.

Mr. Emilio T. González, Director
 Miami-Dade Aviation Department
 August 5, 2014

- Gathered and analyzed building rental rates in the areas surrounding Miami International Airport. The findings indicate there is a direct relationship between office building rental rates at Miami International Airport and the nearby off-airport office buildings rental rates and there is no particular advantage for office tenants being on the airport.
- Gathered and analyzed warehouse rental rates in the Airport West market area, just west of Miami International Airport as well as surrounding industrial markets. Results indicated there is a relationship between off-airport warehouse rental rates and cargo/warehouse rental rates on-airport. The security, minimum truck transportation and/or the ability to bring an aircraft to a cargo building are benefits of being on-airport. Therefore, on-airport cargo/warehouse buildings command a rental premium. This relationship between on-airport cargo rates and off-airport warehouse rates has been examined at other airports.

The market rental rates are based on the data, analyses and conclusions within a report that is available for review in our office.

Market rent is defined as the rental income that a property would most probably command in the open market indicated by the current rents paid for comparable space as of the date of the appraisal.

After analyzing land sales surrounding Miami International Airport and land rental rates at comparable airports the following was considered in the conclusion of market land rates;

- 1) Subject land will be limited to airport and aviation purposes.
- 2) No assignment of leasehold without approval of the County.
- 3) No subordination permitted on said leasehold.
- 4) The General Use Master Plan.

After due study and investigation and taking all factors into consideration which apply to the area leased within the confines of Miami International Airport, it is our opinion that the market rent of the land, as of this date, is as reported on the sheet captioned "Land Rental Rates" (page four).

The real estate market, specifically the Airport West industrial market, has been active over the past two years with price levels for land almost doubling. The land rental rate for Zone 1 was kept level for five (5) consecutive years and then was increased by \$.05 per square foot for the 2013 -2014 period. The continued resurgence of the real estate market and the increasing land values is cause for an increase in land rents for the October 1, 2014 to September 30, 2015 period.

Mr. Emilio T. González, Director
Miami-Dade Aviation Department
August 5, 2014

In estimating the building rental rates, each building structure has been inspected, cargo/warehouse and office rentals in the area were reviewed, building rental rates at comparable airports were reviewed and developers/investors of airport cargo buildings were interviewed. All of the above comparable rental information is contained within the Self-Contained Appraisal Report which is retained in the appraisers' office.

In addition to the comparable building rental information, also considered was the following:

- 1) Use, occupancy and utility of subject improvements.
- 2) Condition and building life expectancy of said improvements.
- 3) Demand for such facilities at the airport.
- 4) Replacement cost estimate less depreciation.
- 5) No assignment of leasehold without approval of the County.
- 6) No subordination permitted on said leasehold.

The rental rates estimated herein presume that the building spaces are in rentable condition and are in compliance with life safety standards which are typical requirements of the landlord (MIA). Assumed is that the buildings have completed their 40 year recertification and meet the code requirements for Miami-Dade County. Such requirements include parking per building type which recently has become an item of concern for the airlines. It must be noted common area parking is not typically quantified as a separate component of rent. Some buildings and building spaces at Miami International Airport are unoccupied and are not in rentable condition. If the tenant decides to expend the cost to bring the building or building space into a rentable condition, the tenant should receive a rent credit at least equal to the amortization of the tenant's expenditure over the term of the lease.

Historically tenants at MIA having issues with the rental rates consider the rates being paid are too high mostly based on what they deem to be the lack of deferred maintenance. The annual rents presume the spaces are in rentable condition, are in compliance with life safety standards, and have a 40 year recertification where applicable. It is typical for the landlord to perform maintenance such as touch up painting, repair of stress cracks, removal of plant growth in stress cracks or expansion joints, replace/repair signage not specific to one tenant, repair leaks and various other items that are not the responsibility of the tenant. Inspection of the buildings at MIA reveals many deferred maintenance items. Repairs which have not been done can affect the longevity of the improvements which ultimately affects the ability to collect rent and the rent that can be charged.

Mr. Emilio T. González, Director
Miami-Dade Aviation Department
August 5, 2014

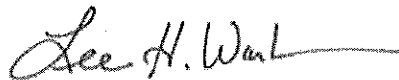

Private ownership of large industrial and office developments typically have a reserve for replacement, also known as a replacement allowance. These property owners place a specific amount yearly into a reserve account to fund deferred maintenance repairs. The amount is often based on a percentage of the rent collected or an amount per square foot of the collected rent. Recommended is MIA place \$.05 per square foot of total building square footage into a reserve for replacement that is available to Real Estate Management Division for repair of deferred maintenance items. The ability of Real Estate Management to cure deferred maintenance items quicker will enhance the remaining life of the improvements and help to offset higher repair expenses in the future.

There has been continued higher than typical vacancy level in the belly buildings. Last year it was recommended that MIA provide a discount program for available space in these buildings which would offer an 8% discount for every year of a new lease. This year the rates for the belly buildings have been decreased due to the lack of demand. These buildings, without direct access to a ramp area for airplanes, are in competition with newly constructed buildings off airport. While these buildings have the amenity of airside access, potential tenants consider the rent level too high for the benefits achieved. Rates in the belly buildings were decreased for the 2014-2015 period with the reduction not becoming effective until the start date of the first lease for belly cargo warehouse space in fiscal year 2015.

Vehicular and aircraft paving rates have not been increased since 2004. Cost of paving has increased over this period and each of these rates was increased by \$.05 to reflect increased costs of repaving.

The estimated market rents consider that the tenant is responsible for land rental, all utilities, and interior maintenance, except where noted.
